## Anti-Keratin 17 [A4] Standard Size Ab00405-10.0

This full-length, chimeric human antibody was made using the variable domain sequences of the original Mouse scFv format, for improved compatibility with existing reagents, assays and techniques.

**Isotype and Format:** Human IgG1, Kappa

**Clone Number:** A4

**Alternative Name(s) of Target:**

**UniProt Accession Number of Target Protein:** Q04695

**Published Application(s):** WB, ELISA, IHC

**Published Species Reactivity:** Human

**Immunogen:** Human keratin-17.

**Specificity:** Binds specifically to human keratin, no observed crossreactivity.

**Application Notes:** This antibody binds to human keratin (K17), which is involved in the formation of skin appendages, growth of hair follicles, regulation of protein synthesis, and epithelial cell growth through SFN-binding and mTOR-stimulation.

**Antibody First Published in:** Wang et al. Cloning and characterization of antikeratin human antibodies using a semisynthetic phage antibody library. Archives in Dermatological Research 2004; 296(6):270-277  
[PMID:15340746](#)

**Note on publication:** Describes the use of a semisynthetic phage antibody library to generate antibodies against human keratin.

### Product Form

**Size:** 200 µg Purified antibody.

**Purification:** Protein A affinity purified

**Supplied In:** PBS with 0.02% Proclin 300.

**Storage Recommendation:** Store at 4°C for up to 3 months. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg/ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
