## Anti-PSA [8G8F5] Bulk Size Ab00423-10.0-BT

This chimeric human antibody was made using the variable domain sequences of the original Mouse IgG2a format, for improved compatibility with existing reagents, assays and techniques.

**Isotype and Format:** Human IgG1, Kappa

**Clone Number:** 8G8F5

**Alternative Name(s) of Target:** KLK3; Human prostate-specific antigen

**UniProt Accession Number of Target Protein:** P07288

**Published Application(s):** ELISA

**Published Species Reactivity:** Human

**Immunogen:** Purified Seminal PSA.

**Specificity:** The antibody binds specifically to human PSA.

**Application Notes:** This antibody binds to human prostate-specific antigen, which hydrolyzes semenogelin-1 triggering the liquifaction of the seminal coagulum. The antibody enhances enzymatic activity by stabilising the open and active conformation.

**Antibody First Published in:** Ménez et al. Crystal structure of a ternary complex between human prostate-specific antigen, its substrate acyl intermediate and an activating antibody. Journal of Molecular Biology 2008; 376(4):1021-1033 [PMID:18187150](#)

**Note on publication:** Describes the crystallisation of a new monoclonal antibody in complex with human PSA.

### Product Form

**Size:** 1 mg Purified antibody in bulk size.

**Purification:** Protein A affinity purified

**Supplied In:** PBS only.

**Storage Recommendation:** Store at 4°C for up to 3 months. Note, this antibody is provided without added preservatives, it is therefore recommended this antibody be handled under sterile conditions. For longer storage, aliquot and store at -20°C.

**Concentration:** 1 mg /ml.

Important note – This product is for research use only. It is not intended for use in therapeutic or diagnostic procedures for humans or animals.
