CEACAM1 Pre-design Chimera RNAi

Catalog # : H00000634-R02

規格 : [10 nmol] [20 nmol]

List All

Specification

Product Description: Homo sapiens carcinoembryonic antigen-related cell adhesion molecule 1 (biliary glycoprotein) (CEACAM1), transcript variant 2, mRNA.

Reactivity: Human

Supplied Product: DEPC water

Target Refseq: NM_001024912

Storage Instruction: Store at -20°C, do not exceed 4 - 5 freeze-thaw cycles to ensure product integrity.

Note: Position of the Chimera RNAi.

Application Image

RNAi Knockdown

Applications

RNAi Knockdown

Gene Information

Entrez GeneID: 634

Gene Name: CEACAM1

Gene Alias: BGP,BGP1,BGPI

Gene Description: carcinoembryonic antigen-related cell adhesion molecule 1 (biliary glycoprotein)

Omim ID: [109770](#)

Gene Ontology: [Hyperlink](#)

Gene Summary: This gene encodes a member of the carcinoembryonic antigen (CEA) gene family, which belongs to the immunoglobulin superfamily. Two subgroups of the CEA family, the CEA cell adhesion molecules and the pregnancy-specific glycoproteins, are located within a 1.2 Mb cluster on the long arm of chromosome 19. Eleven pseudogenes of the CEA cell adhesion molecule subgroup are also found in the cluster. The encoded protein was originally described in bile ducts of liver as biliary glycoprotein. Subsequently, it was found to be a cell-cell adhesion molecule detected on leukocytes, epithelia, and endothelia. The encoded protein mediates cell adhesion via homophilic as well as heterophilic binding to other proteins of the subgroup. Multiple cellular activities have been attributed to the encoded protein, including roles in the differentiation and arrangement of tissue three-dimensional structure, angiogenesis, apoptosis, tumor suppression, metastasis, and the modulation of innate and adaptive immune responses. Multiple transcript variants encoding different isoforms have been reported, but the full-length nature of only two has been determined. [provided by RefSeq]

Other Designations: CD66a antigen, antigen CD66, biliary glycoprotein adhesion molecule, carcinoembryonic antigen-related cell adhesion molecule 1
