CD3D Pre-design Chimera RNAi

Catalog # : H00000915-R02

規格 : [10 nmol] [20 nmol]

List All

Specification

Product Description: Homo sapiens CD3D antigen, delta polypeptide (TIT3 complex) (CD3D), mRNA.

Reactivity: Human

Supplied Product: DEPC water

Target Refseq: NM_000732

Storage Instruction: Store at -20°C, do not exceed 4 - 5 freeze-thaw cycles to ensure product integrity.

Note: Position of the Chimera RNAi.

Application Image

RNAi Knockdown

Applications

RNAi Knockdown

Gene Information

Entrez GeneID: 915

Gene Name: CD3D

Gene Alias: CD3-DELTA,T3D

Gene CD3d molecule, delta (CD3-TCR complex)

Description:

Omim ID: [186790](#), [600802](#)

Gene Ontology: [Hyperlink](#)

Gene Summary: The protein encoded by this gene is part of the T-cell receptor/CD3 complex (TCR/CD3 complex) and is involved in T-cell development and signal transduction. The encoded membrane protein represents the delta subunit of the CD3 complex, and along with four other CD3 subunits, binds either TCR alpha/beta or TCR gamma/delta to form the TCR/CD3 complex on the surface of T-cells. Defects in this gene are a cause of severe combined immunodeficiency autosomal recessive T-cell-negative/B-cell-positive/NK-cell-positive (SCIDBNK). Two transcript variants encoding different isoforms have been found for this gene. Other variants may also exist, but the full-length natures of their transcripts has yet to be defined. [provided by RefSeq]

Other Designations: CD3D antigen, delta polypeptide, CD3d antigen, delta polypeptide (TiT3 complex), T-cell receptor T3 delta chain, T-cell surface glycoprotein CD3 delta chain
