## DBI Pre-design Chimera RNAi

Catalog # : H00001622-R03

規格 : [ 10 nmol ] [ 20 nmol ]

List All

### Specification

**Product Description:** Homo sapiens diazepam binding inhibitor (GABA receptor modulator, acyl-Coenzyme A binding protein) (DBI), transcript variant 3, mRNA

**Reactivity:** Human

**Supplied Product:** DEPC water

**Target Refseq:** NM\_001079862

**Storage Instruction:** Store at -20°C, do not exceed 4 - 5 freeze-thaw cycles to ensure product integrity.

**Note:** Position of the Chimera RNAi.

### Application Image

RNAi Knockdown

### Applications

RNAi Knockdown

### Gene Information

**Entrez GeneID:** [1622](#)

**Gene Name:** DBI

**Gene Alias:** ACBD1,ACBP,CCK-RP,EP,MGC70414

**Gene Description:** diazepam binding inhibitor (GABA receptor modulator, acyl-Coenzyme A binding protein)

**Omim ID:** [125950](#)

**Gene Ontology:** [Hyperlink](#)

**Gene Summary:** This gene encodes diazepam binding inhibitor, a protein that is regulated by hormones and is involved in lipid metabolism and the displacement of beta-carbolines and benzodiazepines, which modulate signal transduction at type A gamma-aminobutyric acid receptors located in brain synapses. The protein is conserved from yeast to mammals, with the most highly conserved domain consisting of seven contiguous residues that constitute the hydrophobic binding site for medium- and long-chain acyl-Coenzyme A esters. Diazepam binding inhibitor is also known to mediate the feedback regulation of pancreatic secretion and the postprandial release of cholecystokinin, in addition to its role as a mediator in corticotropin-dependent adrenal steroidogenesis. Three pseudogenes located on chromosomes 6, 8 and 16 have been identified. Multiple transcript variants encoding different isoforms have been described for this gene. [provided by RefSeq]

**Other Designations:** GABA receptor modulator,acyl coenzyme A binding protein,acyl-Coenzyme A binding domain containing 1,cholecystokinin-releasing peptide, trypsin-sensitive,diazepam binding inhibitor,diazepam binding inhibitor, splice form 1c,endozepine
