ENG (Human) IP-WB Antibody Pair

Catalog # : H00002022-PW2

規格 : [1 Set]

List All

Specification

Product Description: This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.

Reactivity: Human

Quality Control Testing: Immunoprecipitation-Western Blot (IP-WB)

Immunoprecipitation of ENG transfected lysate using mouse monoclonal anti-ENG and Protein A Magnetic Bead (U0007), and immunoblotted with rabbit polyclonal anti-ENG.

Supplied Product: Antibody pair set content:
1. Antibody pair for IP: mouse monoclonal anti-ENG (300 ug)
2. Antibody pair for WB: rabbit polyclonal anti-ENG (50 ul)

Storage Instruction: Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.

Gene Information

Entrez GeneID: [2022](#)

Gene Name: ENG

Gene Alias: CD105,END,FLJ41744,HHT1,ORW,ORW1

Gene Description: endoglin

Omim ID: [131195](#), [187300](#)

Gene Ontology: [Hyperlink](#)

Application Image

Immunoprecipitation-Western Blot

Gene Summary: This gene encodes a homodimeric transmembrane protein which is a major glycoprotein of the vascular endothelium. This protein is a component of the transforming growth factor beta receptor complex and it binds TGFB1 and TGFB3 with high affinity. Mutations in this gene cause hereditary hemorrhagic telangiectasia, also known as Osler-Rendu-Weber syndrome 1, an autosomal dominant multisystemic vascular dysplasia. Alternatively spliced transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq]

Other Designations: CD105 antigen, OTTHUMP00000022221, Osler-Rendu-Weber syndrome 1
