FANCG (Human) IP-WB Antibody Pair

Catalog # : H00002189-PW2

規格 : [1 Set]

List All

Specification

Product Description: This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.

Reactivity: Human

Quality Control Testing: Immunoprecipitation-Western Blot (IP-WB)

Immunoprecipitation of FANCG transfected lysate using rabbit polyclonal anti-FANCG and Protein A Magnetic Bead (U0007), and immunoblotted with mouse purified polyclonal anti-FANCG.

Supplied Product: Antibody pair set content:
1. Antibody pair for IP: rabbit polyclonal anti-FANCG (300 ul)
2. Antibody pair for WB: mouse purified polyclonal anti-FANCG (50 ug)

Storage Instruction: Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.

Gene Information

Entrez GeneID: [2189](#)

Gene Name: FANCG

Gene Alias: FAG, XRCC9

Gene Description: Fanconi anemia, complementation group G

Omim ID: [602956](#)

Gene Ontology: [Hyperlink](#)

Application Image

Immunoprecipitation-Western Blot

Gene Summary: The Fanconi anemia complementation group (FANC) currently includes FANCA, FANCB, FANCC, FANCD1 (also called BRCA2), FANCD2, FANCE, FANCF, FANCG, FANCI, FANCJ (also called BRIP1), FANCL, FANCM and FANCN (also called PALB2). The previously defined group FANCH is the same as FANCA. Fanconi anemia is a genetically heterogeneous recessive disorder characterized by cytogenetic instability, hypersensitivity to DNA crosslinking agents, increased chromosomal breakage, and defective DNA repair. The members of the Fanconi anemia complementation group do not share sequence similarity; they are related by their assembly into a common nuclear protein complex. This gene encodes the protein for complementation group G. [provided by RefSeq]

Other Designations: DNA repair protein XRCC9, OTTHUMP00000021319, X-ray repair complementing defective repair in Chinese hamster cells 9, X-ray repair, complementing defective, in Chinese hamster, 9
