FASN (Human) IP-WB Antibody Pair

Catalog # : H00002194-PW3

規格 : [1 Set]

[List All](#)

Specification

Product Description: This IP-WB antibody pair set comes with one antibody for immunoprecipitation and another to detect the precipitated protein in western blot.

Reactivity: Human

Quality Control Testing: Immunoprecipitation-Western Blot (IP-WB)

Immunoprecipitation of FASN transfected lysate using rabbit polyclonal anti-FASN and Protein A Magnetic Bead ([U0007](#)), and immunoblotted with mouse purified polyclonal anti-FASN.

Supplied Product: Antibody pair set content:
 1. Antibody pair for IP: rabbit polyclonal anti-FASN (300 ul)
 2. Antibody pair for WB: mouse purified polyclonal anti-FASN (50 ug)

Storage Instruction: Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.

Applications

Immunoprecipitation-Western Blot

Gene Information

Entrez GeneID: [2194](#)

Gene Name: FASN

Gene Alias: FAS,MGC14367,MGC15706,OA-519,SDR27X1

Gene Description: fatty acid synthase

Omim ID: [600212](#)

Gene Ontology: [Hyperlink](#)

Gene Summary: The enzyme encoded by this gene is a multifunctional protein. Its main

function is to catalyze the synthesis of palmitate from acetyl-CoA and malonyl-CoA, in the presence of NADPH, into long-chain saturated fatty acids. In some cancer cell lines, this protein has been found to be fused with estrogen receptor-alpha (ER-alpha), in which the N-terminus of FAS is fused in-frame with the C-terminus of ER-alpha. [provided by RefSeq]

Other Designations: short chain dehydrogenase/reductase family 27X, member 1
