FGA (Human) Matched Antibody Pair

Catalog # : H00002243-AP51

規格 : [1 Set]

List All

Specification

Product Description: This antibody pair set comes with matched antibody pair to detect and quantify protein level of human FGA.

Reactivity: Human

Quality Control Testing: Standard curve using FGA 293T overexpression lysate (non-denatured) as an analyte.

Sandwich ELISA detection sensitivity ranging from approximately 27x to 3x dilution of the FGA 293T overexpression lysate (non-denatured).

Supplied Product: Antibody pair set content:
 1. Capture antibody: mouse monoclonal anti-FGA (100 ug)
 2. Detection antibody: rabbit purified polyclonal anti-FGA (50 ug)
 *Reagents are sufficient for at least 3-5 x 96 well plates using recommended protocols.

Storage Instruction: Store reagents of the antibody pair set at -20°C or lower. Please aliquot to avoid repeated freeze thaw cycle. Reagents should be returned to -20°C storage immediately after use.

Gene Information

Entrez GeneID: [2243](#)

Gene Name: FGA

Gene Alias: Fib2, MGC119422, MGC119423, MGC119425

Gene Description: fibrinogen alpha chain

Omim ID: [105200](#), [134820](#), [202400](#)

Gene Ontology: [Hyperlink](#)

Application Image

ELISA Pair (Transfected lysate)

Gene Summary: The protein encoded by this gene is the alpha component of fibrinogen, a blood-borne glycoprotein comprised of three pairs of nonidentical polypeptide chains. Following vascular injury, fibrinogen is cleaved by thrombin to form fibrin which is the most abundant component of blood clots. In addition, various cleavage products of fibrinogen and fibrin regulate cell adhesion and spreading, display vasoconstrictor and chemotactic activities, and are mitogens for several cell types. Mutations in this gene lead to several disorders, including dysfibrinogenemia, hypofibrinogenemia, afibrinogenemia and renal amyloidosis. Alternative splicing results in two isoforms which vary in the carboxy-terminus. [provided by RefSeq]

Other Designations: fibrinogen, A alpha polypeptide, fibrinogen, alpha chain, isoform alpha preproprotein, fibrinogen, alpha polypeptide
