HFE polyclonal antibody (A01)

Catalog # : H00003077-A01

規格 : [50 uL]

List All

Specification	Application Image
Product Description: Mouse polyclonal antibody raised against a partial recombinant HFE.	ELISA
Immunogen: HFE (NP_000401, 115 a.a. ~ 205 a.a) partial recombinant protein with GST tag.	
Sequence: SHTLQVILGCEMQEDNSTEGYWKYGYDGGQDHLEFCPDTLDWRRAEPR AWPTKLEWERHKIRARQNRAYLERDQPAQLQQLELGRGVLDDQQ	
Host: Mouse	
Reactivity: Human	
Quality Control Testing: Antibody Reactive Against Recombinant Protein.	
Storage Buffer: 50 % glycerol	
Storage Instruction: Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.	
MSDS:  Download	
Datasheet:  Download	
Applications	
ELISA	
Gene Information	
Entrez GeneID: 3077	
GeneBank Accession#: NM_000410	
Protein Accession#: NP_000401	
Gene Name: HFE	
Gene Alias: HFE1,HH,HLA-H,MGC103790,dJ221C16.10.1	
Gene Description: hemochromatosis	
Omim ID: 176200 , 235200	
Gene Ontology: Hyperlink	
Gene Summary: The protein encoded by this gene is a membrane protein that is similar	

to MHC class I-type proteins and associates with beta2-microglobulin (beta2M). It is thought that this protein functions to regulate iron absorption by regulating the interaction of the transferrin receptor with transferrin. The iron storage disorder, hereditary haemochromatosis, is a recessive genetic disorder that results from defects in this gene. At least nine alternatively spliced variants have been described for this gene. Additional variants have been found but their full-length nature has not been determined. [provided by RefSeq]

Other Designations: MHC class I-like protein HFE, hemochromatosis protein, hereditary hemochromatosis protein HLA-H
