## HLA-DRB4 Pre-design Chimera RNAi

Catalog # : H00003126-R02 規格 : [ 10 nmol ] [ 20 nmol ]

List All

### Specification

**Product Description:** Homo sapiens major histocompatibility complex, class II, DR beta 4 (HLA-DRB4), mRNA.

### Application Image

RNAi Knockdown

**Reactivity:** Human

**Supplied Product:** DEPC water

**Target Refseq:** NM\_021983

**Storage Instruction:** Store at -20°C, do not exceed 4 - 5 freeze-thaw cycles to ensure product integrity.

**Note:** Position of the Chimera RNAi.

### Applications

#### RNAi Knockdown

#### Gene Information

**Entrez GeneID:** 3126

**Gene Name:** HLA-DRB4

**Gene Alias:** DRB4, HLA-DR4B

**Gene** major histocompatibility complex, class II, DR beta 4

**Description:**

#### Gene Ontology: [Hyperlink](#)

**Gene Summary:** HLA-DRB4 belongs to the HLA class II beta chain paralogues. This class II molecule is a heterodimer consisting of an alpha (DRA) and a beta (DRB) chain, both anchored in the membrane. It plays a central role in the immune system by presenting peptides derived from extracellular proteins. Class II molecules are expressed in antigen presenting cells (APC: B lymphocytes, dendritic cells, macrophages). The beta chain is approximately 26-28 kDa and its gene contains 6 exons. Exon one encodes the leader peptide, exons 2 and 3 encode the two extracellular domains, exon 4 encodes the transmembrane domain and exon 5 encodes the cytoplasmic tail. Within the DR molecule the beta chain contains all the polymorphisms specifying the peptide binding specificities. Typing for these polymorphisms is routinely done for bone marrow and kidney transplantation. DRB1 is expressed at a level five times higher than its paralogues DRB3, DRB4 and DRB5. The presence of DRB4 is linked with allelic variants of DRB1, otherwise it is omitted. There are 4 related pseudogenes: DRB2, DRB6, DRB7, DRB8 and DRB9. [provided by RefSeq]

**Other Designations:** DRB1 transplantation antigen, HLA DRB1\*1202, MHC HLA DR-beta chain, MHC class II HLA-DR-beta-7, MHC class II antigen HLA-DR-beta, MHC class II antigen HLA-DRB1, MHC class2 antigen, class II histocompatibility antigen HLA DR alpha, beta1-0307, human leucocyte anti
