Datasheet

NTF4 MaxPab rabbit polyclonal antibody (D01)

Catalog Number: H00004909-D01

Regulatory Status: For research use only (RUO)

Product Description: Rabbit polyclonal antibody raised against a full-length human NTF4 protein.

Immunogen: NTF4 (NP_006170.1, 1 a.a. ~ 210 a.a) full-length human protein.

Sequence:

MLPLPSCSLPILLFLLLPSVPIESQPPPSTLPPFLAPEW

LRGREVEVLGEVPAAGGSPLRQYFFETRCKADNAEE
GGPGAGGGGCRGVDRRHVSECKAKQSYVRALTAD
AQGRVGRWIRIDTACVCTLLSRTGRA

Host: Rabbit

Reactivity: Human

Applications: IP, WB-Tr

(See our web site product page for detailed applications information)

Protocols: See our web site at

<http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Storage Buffer: No additive

Storage Instruction: Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 4909

Gene Symbol: NTF4

Gene Alias: NT-4/5, NT4, NT5, NTF5

Gene Summary: This gene is a member of a family of neurotrophic factors, neurotrophins, that control survival and differentiation of mammalian neurons. The expression of this gene is ubiquitous and less influenced by environmental signals. While knock-outs of other neurotrophins including nerve growth factor,

brain-derived neurotrophic factor, and neurotrophin 3 prove lethal during early postnatal development, NTF5-deficient mice only show minor cellular deficits and develop normally to adulthood. [provided by RefSeq]
