DDR2 Pre-design Chimera RNAi

Catalog # : H00004921-R08

規格 : [10 nmol] [20 nmol]

List All

Specification

Product Description: Homo sapiens discoidin domain receptor family, member 2 (DDR2), transcript variant 2, mRNA.

Reactivity: Human

Supplied Product: DEPC water

Target Refseq: NM_006182

Target Region: Coding sequence

Storage Instruction: Store at -20°C, do not exceed 4 - 5 freeze-thaw cycles to ensure product integrity.

Note: Position of the Chimera RNAi.
The related RNAi products listed below were designed from different accession number but sharing the same RNAi sequence.

Application Image

RNAi Knockdown

Applications

RNAi Knockdown

Gene Information

Entrez GeneID: [4921](#)

Gene Name: DDR2

Gene Alias: MIG20a,NTRKR3,TKT,TYRO10

Gene Description: discoidin domain receptor tyrosine kinase 2

Omim ID: [191311](#)

Gene Ontology: [Hyperlink](#)

Gene Summary: Receptor tyrosine kinases (RTKs) play a key role in the communication of cells with their microenvironment. These molecules are involved in the regulation of cell growth, differentiation, and metabolism. In several cases the biochemical mechanism by which RTKs transduce signals across the membrane has been shown to be ligand induced receptor oligomerization and subsequent intracellular phosphorylation. This autophosphorylation leads to phosphorylation of cytosolic targets as well as association with other molecules, which are involved in pleiotropic effects of signal transduction. RTKs have a tripartite structure with extracellular, transmembrane, and cytoplasmic regions. This gene encodes a member of a novel subclass of RTKs and contains a distinct extracellular region encompassing a factor VIII-like domain. Alternative splicing in the 5' UTR results in multiple transcript variants encoding the same protein. [provided by RefSeq]

Other Designations: OTTHUMP00000032332,OTTHUMP00000038368,cell migration-inducing protein 20,discoidin domain receptor family, member 2,hydroxyaryl-protein kinase,migration-inducing gene 16 protein,neurotrophic tyrosine kinase receptor related 3,tyrosylprotein kinase
