ST3GAL3 MaxPab rabbit polyclonal antibody (D01)

Catalog Number: H00006487-D01

Regulatory Status: For research use only (RUO)

Product Description: Rabbit polyclonal antibody raised against a full-length human ST3GAL3 protein.

Immunogen: ST3GAL3 (NP_777624.1, 1 a.a. ~ 390 a.a) full-length human protein.

Host: Rabbit

Reactivity: Human

Applications: IP

(See our web site product page for detailed applications information)

Protocols: See our web site at

<http://www.abnova.com/support/protocols.asp> or product page for detailed protocols

Storage Buffer: No additive

Storage Instruction: Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 6487

Gene Symbol: ST3GAL3

Gene Alias: SIAT6, ST3GALII, ST3GalIII, ST3N

Gene Summary: The protein encoded by this gene is a

type II membrane protein that catalyzes the transfer of sialic acid from CMP-sialic acid to galactose-containing substrates. The encoded protein is normally found in the Golgi apparatus but can be proteolytically processed to a soluble form. This protein is a member of glycosyltransferase family 29. Multiple transcript variants encoding several different isoforms have been found for this gene. [provided by RefSeq]
