<b>Catalog Number</b>	GTX38746	Package:200 µl
<b>Product Name</b>	TSH beta antibody (HRP)	
<b>Full Name</b>	thyroid stimulating hormone, beta	
<b>Synonyms</b>	TSHBETA	
<b>Product Description</b>	HRP-conjugated Goat Polyclonal antibody to TSH beta	
<b>Specificity</b>	Thyroid Stimulating Hormone (TSH) beta	
<b>Background</b>	The four human glycoprotein hormones chorionic gonadotropin (CG), luteinizing hormone (LH), follicle stimulating hormone (FSH), and thyroid stimulating hormone (TSH) are dimers consisting of alpha and beta subunits that are associated noncovalently. The alpha subunits of these hormones are identical, however, their beta chains are unique and confer biological specificity. Thyroid stimulating hormone functions in the control of thyroid structure and metabolism. The protein encoded by this gene is the beta subunit of thyroid stimulating hormone. Mutations in this gene result in congenital hypothyroidism.	
<b>Host</b>	Goat	
<b>Clonality</b>	Polyclonal	
<b>Target</b>	TSH beta	
<b>Species Reactivity</b>	Human	
<b>Conjugation</b>	HRP	
<b>Form Supplied</b>	Liquid	
<b>Storage Buffer</b>	0.05 M Potassium Phosphate, 0.85% Sodium Chloride, pH 7.2 containing BSA and Proclin	
<b>Storage Instruction</b>	Upon receipt, store at -20°C. Avoid multiple freeze/thaw cycles.	
<b>Notes</b>	For <i>In vitro</i> laboratory use only. Not for any clinical, therapeutic, or diagnostic use in humans or animals. Not for animal or human consumption.
